## PRESS RELEASE

### Modus Operandi Hires Engineers to Support Contracts

MELBOURNE, Florida, February \_\_\_\_\_, 2004—Modus Operandi, a leading business and information technology solutions company, announced the hiring of two engineers to support new and ongoing contracts.

Systems Engineer Eric Martin graduated from the University of Pittsburgh with a B.S. in Computer Science and Applied Mathematics and comes to Modus with in-depth experience in developing software for large-scale mission-critical systems. He will be working on Collaborative Data Access (CODA), a Phase II Naval Air Systems Command SBIR contract sponsored by the Joint Strike Fighter, a next generation strike aircraft weapon system under development for the Navy, Air Force, Marines, and U.S. allies.

Sr. Software Engineer Rick Rojas holds a B.S. from Nova Southeastern University and is well versed in multiple programming languages and Internet technologies for enterprise security, document management and collaboration, and brings more than ten years' experience working with McDonnell Douglas Missile Systems on the Tomahawk Cruise Missile project. Mr. Rojas will be working on the Ilex \_\_\_\_\_

Says Modus Operandi President and CEO Peter Dyson, “

### About Modus Operandi

Modus Operandi provides products and services for enterprise information integration and process improvement. The company's solutions address both the processes and the key enabling technologies necessary to link people, processes and systems for critical information sharing.
