## PRESS RELEASE

### **Modus Operandi Staff Receives Team Excellence Awards from the U.S. Air Force**

- *Wave® product for semantic data services successfully deployed to provide information to the 45<sup>th</sup> Space Wing's Shark Command and Control System.*
- *Results in improved situational visibility for Wing Operations Center staff.*

**MELBOURNE, Florida, August 28, 2006** – **Modus Operandi**, a leading software and information integration technology company, has been presented with Team Excellence Awards for the first quarter by the U.S. Air Force 45<sup>th</sup> Space Wing. The awards were signed by Brigadier General Mark Owen and presented to Robert Price, Director of Product Services and Victor Ross, Senior Software Engineer with appreciation for their efforts to improve mission success by participating on the Wing Operations Center (WOC) Status Program Team. Modus Operandi was tasked with developing the Shark Command and Control System which provides daily command post and battle staff crisis management capabilities into a single integrated range picture (SIRP). Modus Operandi deployed its Wave® semantic integration product to federate data into the SIRP and serve the Knowledge Management Framework which provides a common access point to 45<sup>th</sup> Space Wing data. Wave uses the BEA AquaLogic Data Services Platform™ for the underlying data integration services.

Says Modus Operandi President and CEO, Peter Dyson, "We're especially proud that the Space Wing commander recognizes the efforts of Modus Operandi's employees on the WOC team. These awards acknowledge combined power of our Wave product and our dedicated employees' for achieving our customers' mission critical goals."
