NEWS RELEASE

Modus Operandi Personnel to Speak at SemTech

MELBOURNE, FL, May 24, 2010 – Modus Operandi, a leading software and information integration technology company, will be speaking to audiences at the Semantic Technology Conference in San Francisco, Calif., during the week of June 21, 2010. Modus Operandi's Dr. Kent D. Bimson, vice president of research, and Mark Wallace, principal engineer of semantic applications, are scheduled to provide presentations during the technical sessions. Dr. Kent Bimson is presenting "Case Study Year 5: USAF 45th Space Wing KMI - Representing Semantic Points-of-View Using SITREP and Mission Ontologies" during the Semantics for Enterprise Data track on June 25. Mark Wallace is discussing "Rapid Prototyping with the Jena Command Line Utilities" during the Ontology Design and Engineering track on June 22.

The conference will take place June 21 – 25, 2010 at the San Francisco Hilton in Union Square. For more information, visit <http://semtech2010.semanticuniverse.com/>.

About Modus Operandi

Modus Operandi is a software technology company focused on accelerating information discovery, integration and fusion for customers in the defense and intelligence community. Since 1984, the company has been on the forefront of information technology advancement. As a result of continuous innovation and multi-million dollar investment, our solutions are now at work in many mission critical operations.
