## NEWS RELEASE

### Modus Operandi Names Dr. Kent Bimson Vice President of Research

**MELBOURNE, FL, Nov. 30, 2009** – Modus Operandi, a leading software and information integration technology company, has appointed Dr. Kent Bimson to the new position of vice president of research. He will be focused on achieving Modus Operandi's research goals that contribute to the overall growth of the company's intellectual property (IP) portfolio and the delivery of high value to customers.

During the course of his 30-year career, Dr. Bimson has held a number of executive positions – including chief scientist – at leading Fortune-500 companies that include SAIC and Lockheed Martin. For the last eight years, he has been an independent consultant specializing in the area of semantic technologies. He has held faculty positions in linguistics and computer science at the University of California, Davis and California State University, Sacramento.

Dr. Bimson holds a Ph.D. in linguistics from the University of California, Los Angeles (UCLA) and a master's degree in computer science from California State University, Sacramento.

"Kent has been a key resource and contributor for our projects at the USAF 45<sup>th</sup> Space Wing and the Air Force Research Laboratory," said Richard Hull, executive vice president of operations. "He brings a great deal of knowledge and skill in the areas of ontology design, knowledge representation and natural language processing. We are pleased to have him join the MO team."

#### About Modus Operandi

Modus Operandi is a software technology company focused on accelerating information discovery, integration and fusion for customers in the defense and intelligence community. Since 1984, the company has been on the forefront of information technology advancement. As a result of continuous innovation and multi-million dollar investment, our solutions are now at work in many mission critical operations.
